

TAKE CONTROL OF YOUR MS RELAPSES

Know Your Treatment Options

If you're unsatisfied with your current treatment for MS relapses—because it doesn't work well or causes side effects that are hard to manage—you're invited to a presentation created especially for you.

You will learn from an MS healthcare professional about a different FDA-approved treatment option and hear a firsthand account of a patient's experience with this treatment.

You will also learn:

- How to distinguish between relapses and pseudo-relapses
- About the importance of treating relapses
- How to talk about relapses with your healthcare provider
- About the available treatment options for MS relapses

Location The Centre at Bluffton
601 Main Street
Bluffton, Ohio 45817

Date Wednesday, October 24, 2012

Time 6:30 PM

Check-in 6:00 PM

Presented by Lawrence Goldstick, MD
